

Brian Carabet and John Shand founded Panache Partners in 2003. With more than 25 years of experience in the publishing industry and upwards of 100 books and magazines published in their careers, they are drawn to providing high-end publications to readers who simply demand the best.

This Los Angeles issue is the seventeenth in the *Dream Homes* series, which has been further expanded to over 20 major markets in the country, including all of Southern California, Colorado, Florida, the Pacific Northwest, Chicago, Minnesota, New York and the eclectic Southwest.

The company has also published *Spectacular Homes of California*, an exclusive showcase of the state's finest interior designers. Having received critical acclaim in national publications and regional media alike, both *Spectacular Homes* and *Dream Homes* have become favorites for shelter publication aficionados. The discerning yet diversified tastes of the creators of the fine living spaces in these books truly make these series popular.

Next up? *City by Design: An Architectural Perspective of Los Angeles*.

LOS ANGELES

AN EXCLUSIVE SHOWCASE OF THE FINEST ARCHITECTS IN LOS ANGELES  
FOREWORD BY JULIUS SHULMAN

*Dream Homes Los Angeles* presents you with breathtakingly rich photographs of some of the most technically innovative and aesthetically interesting architecture in the world. This magnificent collection of visually stunning homes by widely respected architects is sure to impress both industry professionals and casual readers. You will get a rare glimpse into exquisite residences and meet the people who create such artistically crafted structures.

Nest Architecture skillfully balances the clean precision of steel and glass with the warmth of natural wood and stone, creating spaces that are both protective and organic. Kip Kelly, AIA, succeeds in designing homes that embrace their residents, while simultaneously immersing them in the world outside. The identity of Nest Architecture is based on fulfilling the fundamental human need for security and comfort: while technologically advanced and "warm contemporary" in style, each home Kip designs is, in essence, a human "nest."

Southern California's mild climate and inspiring scenery have created the perfect backdrop for these architects to place their finest work along the coast, on rolling hillsides and within the city. The homes showcased on the following pages have been selected for their immaculate design, originality of concept and technological innovation. Sit back and savor the beauty and splendor of this exclusive collection of photographs that captures the unique views of architects throughout the Los Angeles area.
